10. Journal d'Installation	11
11. Écran de Connexion en Ligne de Commande	12
12. Écran de Connexion à l'Interface Graphique	

Ce guide détaille le processus d'installation de Proxmox VE 8.2.

## 1. Écran de Bienvenue

Proxmox VE 8.2 (iso release 2) - https://www.proxmox.com/

Install Proxmox VE (Graphical)
Install Proxmox VE (Terminal UI)
Advanced Options

enter: select, arrow keys: navigate, e: edit entry, esc: back

Lors du démarrage de l'installateur Proxmox VE 8.2, l'écran de bienvenue apparaît avec plusieurs options :

- Install Proxmox VE (Graphical): Lance l'installation en mode graphique.
- Install Proxmox VE (Terminal UI): Lance l'installation en mode terminal.
- Advanced Options : Options avancées pour la configuration.

## 2. Chargement de l'Installateur

```

```

L'installateur charge les fichiers système nécessaires et détecte le matériel. Pendant cette phase, plusieurs erreurs peuvent apparaître (ex. intel\_cstate, intel\_tcc\_cooling) si certains modules ne sont pas compatibles avec le matériel actuel. Ces erreurs sont généralement sans impact pour la suite de l'installation.

# 3. Accord de Licence Utilisateur Final (EULA)

#### **END USER LICENSE AGREEMENT (EULA)**

END USER LICENSE AGREEMENT (EULA) FOR PROXMOX VIRTUAL ENVIRONMENT (PROXMOX VE)

By using Proxmox VE software you agree that you accept this EULA, and that you have read and understand the terms and conditions. This also applies for individuals acting on behalf of entities. This EULA does not provide any rights to Support Subscriptions Services as software maintenance, updates and support. Please review the Support Subscriptions Agreements for these terms and conditions. The EULA applies to any version of Proxmox VE and any related update, source code and structure (the Programs), regardless of the delivery mechanism.

1. License. Proxmox Server Solutions GmbH (Proxmox) grants to you a perpetual, worldwide license to the Programs pursuant to the GNU Affero General Public License V3. The license agreement for each component is located in the software component's source code and permits you to run, copy, modify, and redistribute the software component's cource code and obligations in some cases), both in source code and binary code forms, with the exception of certain binary only fimware components and the Proxmox langes (e.g. Proxmox logo). The license rights for the binary only fimware components are located within the components. This EULA pertains solely to the Programs and does not limit your rights under, or grant you rights that supersede, the license terms of any particular component.

2. Limited Warranty. The Programs and the components are provided and licensed "as is" without warranty of any kind, expressed or implied, including the implied warranties of merchantability, non-infringement or fitness for a particular purpose. Neither Proxmox nor its affiliates warrants that the functions contained in the Programs will meet your requirements or that the operation of the Programs will be entirely error free, appear or perform precisely as described in the accompanying documentation, or comply with regulatory requirements.

Abort Previous lagree

L'utilisateur doit accepter les termes de la licence pour continuer. Cet écran affiche l'EULA (End User License Agreement) de Proxmox VE, indiquant les droits et limites d'utilisation du logiciel.

Cliquez sur I agree pour accepter les conditions.

# 4. Sélection du Disque d'Installation

#### **Proxmox Virtual Environment (PVE)**

The Proxmox Installer automatically partitions your hard disk. It installs all required packages and makes the system bootable from the hard disk. All existing partitions and data will be lost.

Press the Next button to continue the installation.

- Please verify the installation target
   The displayed hard disk will be used for the installation.
   Warning: All existing partitions and data will be lost.
- Automatic hardware detection
   The installer automatically configures your hardware.
- Graphical user interface
   Final configuration will be done on the graphical user interface, via a web browser.

Cet écran permet de choisir le disque cible pour l'installation de Proxmox VE. Le programme d'installation formate le disque sélectionné, supprimant ainsi toutes les données existantes.

Vérifiez bien le disque sélectionné avant de cliquer sur Next.

# 5. Configuration de la Localisation et du Fuseau Horaire

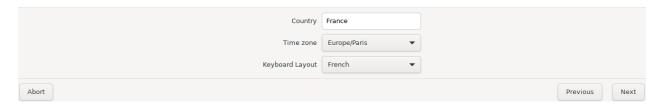

#### **Location and Time Zone selection**

The Proxmox Installer automatically makes location-based optimizations, like choosing the nearest mirror to download files from. Also make sure to select the correct time zone and keyboard layout.

Press the Next button to continue the installation

- Country: The selected country is used to choose nearby mirror servers. This will speed up downloads and make updates more reliable.
- Time Zone: Automatically adjust daylight saving time.
- Keyboard Layout: Choose your keyboard layout

Choisissez les paramètres régionaux pour optimiser les téléchargements et les mises à jour :

- Country: Sélectionnez le pays (France dans cet exemple).
- **Time Zone**: Fuseau horaire correspondant à votre localisation (Europe/Paris).
- Keyboard Layout : Disposition du clavier (French).

## 6. Définition du Mot de Passe Administrateur et Email

#### **Administration Password and Email Address**

**Proxmox Virtual Environment** is a full featured, highly secure GNU/Linux system, based on Debian.

In this step, please provide the root password.

- Password: Please use a strong password. It should be at least 8 characters long, and contain a combination of letters, numbers, and symbols.
- Email: Enter a valid email address. Your Proxmox VE server will send important alert notifications to this email account (such as backup failures, high availability events, etc.).

Press the Next button to continue the installation.

Définissez un mot de passe sécurisé pour l'utilisateur root et ajoutez une adresse e-mail pour les notifications système.

- Password : Mot de passe root (minimum 8 caractères).
- **Email**: Adresse e-mail pour recevoir des alertes et notifications.

# 7. Configuration Réseau

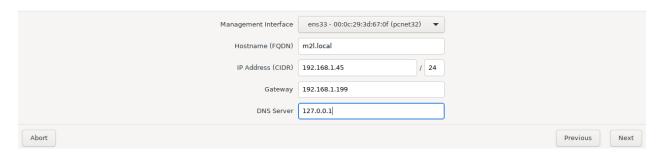

#### **Management Network Configuration**

Please verify the displayed network configuration. You will need a valid network configuration to access the management interface after installing.

After you have finished, press the Next button. You will be shown a list of the options that you chose during the previous steps.

- IP address (CIDR): Set the main IP address and netmask for your server in CIDR notation.
- Gateway: IP address of your gateway or firewall.
- DNS Server: IP address of your DNS server.

Paramétrez les informations réseau de Proxmox VE. Ces informations permettent d'accéder à l'interface de gestion du serveur.

- Management Interface : Interface réseau (ex. ens33).
- Hostname (FQDN): Nom de domaine complet du serveur (ex. m2l.local).
- IP Address (CIDR) : Adresse IP du serveur et masque réseau (ex. 192.168.1.45/24).
- Gateway : Passerelle réseau (ex. 192.168.1.199).
- DNS Server : Serveur DNS (ex. 127.0.0.1 pour localhost).

### 8. Résumé des Paramètres

Vérifiez les paramètres avant de lancer l'installation. L'installateur affichera un résumé des informations choisies, incluant :

Option	Valeur
Filesystem	ext4
Disk(s)	/dev/sda
Country	France
Timezone	Europe/Paris
Keymap	fr
Email	Groupe3E5@gmail.com
Management Interface	ens33
Hostname	m2l
IP CIDR	192.168.1.45/24
Gateway	192.168.1.199
DNS	127.0.0.1

Cliquez sur Install pour lancer l'installation.

### 9. Plateforme de Virtualisation

Pendant l'installation, Proxmox VE présente ses fonctionnalités de virtualisation :

- Container Virtualization: Virtualisation par conteneurs avec une perte de performance minimale.
- Full Virtualization (KVM): Virtualisation complète compatible avec les OS Linux et Windows.
- Enterprise Ready : Plateforme prête pour les entreprises avec des options de gestion centralisée et de sauvegarde en ligne.

### 10. Journal d'Installation

```

                                                                 : successfully unmounted
                                                                  : ignored
  eject: cannot open /dev/sr0: Device or resource busy
 rebooting - please remove the ISO boot media
```

L'installation se poursuit avec la détection du matériel et les configurations réseau. Ce journal affiche les étapes effectuées en temps réel.

# 11. Écran de Connexion en Ligne de Commande

```
Welcome to the Proxmox Virtual Environment. Please use your web browser to configure this server - connect to:

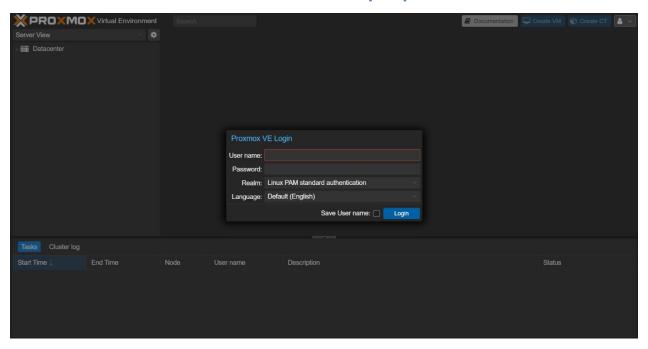

https://192.168.1.45:8006/

m2l login:
```

Après le redémarrage, Proxmox VE est accessible via un navigateur à l'adresse IP indiquée. Utilisez l'interface web pour configurer davantage le serveur.

Adresse d'accès : https://192.168.1.45:8006/

# 12. Écran de Connexion à l'Interface Graphique

Écran de connexion de l'interface graphique de Proxmox VE. Entrez les informations de connexion pour accéder à la gestion du serveur.

- User name: Nom d'utilisateur (ex. root).
- Password : Mot de passe défini précédemment.
- Realm: Méthode d'authentification (ex. Linux PAM standard authentication).
- Language : Langue de l'interface.

Documentation Installation de PROXMOX
Fin de l'installation : Proxmox VE est maintenant installé et prêt à être configuré pour la virtualisation.
